

Office Memorandum • UNITED STATES GOVERNMENT

TO : Deputy Director of Training (General)

DATE: 8 June 1953

FROM : Chief, Training Aids Branch

SUBJECT: Film Production

REFERENCE: a. Confidential memo dtd 17 November 1952, to C/SS, from DD/TR(G);
Subject: Requirements for the Production of Motion Pictures

25X1A9a

b. Restricted memo dtd 29 April 1953, to C/Intelligence Tr. Div.,
from [REDACTED] BIC Staff; Subject: Training Aids
for Use in the Basic Intelligence School

25X1A9a

25X1A9a

c. Restricted memo dtd 1 June 1953, to C/TAB, from [REDACTED]
[REDACTED] BIC(I); Subject: Slide Film

1. The purpose of this memorandum is to review the progress on several film training aids requested by TR(G).

2. The series of films described in the reference a. above, have been assigned a low priority for production by the OTR Motion Picture Section. This will delay their production for perhaps three years. However, an arrangement has been completed with the Naval Photographic Center to produce "Dissemination" of the "The Intelligence Process" by the filmagraph technique. This will be a joint effort by TAB and the NPC. If this arrangement is satisfactory, additional films in the series will be made by this technique. This also covers paragraph 2. a. of the reference b. and reference c.

3. Paragraph 2. b. of reference b. pertains to certain documentary film primarily of an area background nature. There is a possibility that the OTR Motion Picture Section may be able to arrange with the Air Force Motion Picture units to accomplish the basic footage screening task and preliminary editing. It has been recommended to [REDACTED] that a detailed outline of the material required, using any country as an example, and any special requirements, be forwarded to TAB to begin negotiations with the Air Force. If successful, screenings could begin in mid-July.

25X1A9a

4. Other graphic aids detailed in paragraphs 3. and 4. of reference b. will be completed by TAB. In addition, discussions have been started with [REDACTED] concerning a series of static display panels.
